How to use ASSA ABLOY Code Handle

ASSA ABLOY Code Handle needs to be fitted with two batteries, CR2, before you are able to use it

The handle has to be programmed before use. You can choose one master code and up to nine user codes. You can also choose auto locking. Instruction for this is in the package.

To unlock and lock

1. Unlock the handle by pressing the right code on the buttons 1-4.
2. Lock the handle by pressing the button with the padlock symbol.

The actual code can be changed. Instruction for this is in the package.
